

The XLV International Symposium on Multiparticle Dynamics, or ISMD 2015, was held from Sunday, 4 October 2015, to Friday, 9 October 2015, at Wildbad Kreuth about 70 km south of Munich in Germany. The ISMD 2015 is organized by the Max-Planck-Institute für Physik. The symposium had experimental and theoretical plenary talks spread over 9 sessions including a poster session in 5 days, see also ismd2015.mpp.mpg.de for schedule details. The meeting provided a pleasant and stimulating environment for presentation and discussion of recent experimental results as well as new developments in theory. Attendance was limited to about 100 participants. The organisers would like to express their gratitude towards the staff of the Wildbad Kreuth meeting centre, who provided a complete and professional support at all times during the symposium.
