Subject: Statement of Peer-Review for the publication of HIAS15 proceedings

Dear publishers,

All contributions to the Heavy-Ion Accelerator Symposium (HIAS) 2015 proceedings have been peer-reviewed by anonymous international experts (one referee per contribution) according to international standards and practices. The referees were chosen by the editorial board (M. W. Reed, E. C. Simpson and A. J. Mitchell) nominated by G. J. Lane, Chair of HIAS15. The authors were given a chance to reply to the referee.

Sincerely yours,

Dr. Matthew Reed

Dr Edward Simpson

Dr Alan John Mitchell
