

# Introduction

The Regional Conference on Nuclear Physics (RCNP) 2016 has been organized for the first time immediately after the 3rd edition of the Winter School. This conference was co-organized by Universiti Teknologi Malaysia, Universiti Kebangsaan Malaysia and Centre Etudes Nucléaires de Bordeaux Gradignan, France. The aim of this conference is to provide a platform for local academicians, researchers and postgraduates to showcase their nuclear physics related researches. The topics covered in the conference are mainly related to applied nuclear physics with some contributions from fundamental studies in theoretical and experimental works.
