

Fuel cells for electrochemical energy conversion

RYAN P. O'HAYRE

*Metallurgical and Materials Engineering, Colorado School of Mines
1500 Illinois St, Golden, CO 80401, USA*

These lecture notes were originally published in *EPJ Web of Conferences*, **148** (2017) DOI: 10.1051/epjconf/201714800013 as a contribution to the Proceedings of the 5th course of the MRS-EMRS “Materials for Energy and Sustainability” and 3rd course of the Joint EPS-SIF International School on Energy held in 2016. They are here reproduced as a good summary of the material presented in July 2017 during the course “Advances in Basic Energy Issues”.
