

## **Preface**

The EOS Optical Technologies conference was held in Munich, Germany, 24-26 June 2019. The conference included two sub-conferences:

5th Conference on Optofluidics (OF)

6th Conference on Manufacturing of Optical Systems (MOS)

These conferences included several topics within optics and photonics, e.g. linear-and non-linear optics, lasers, microfluidics, sensors, microscopy, and ranging from optics design and tolerancing up to optics fabrication and applications.

EOS Optical Technologies was held under the umbrella of the World of Photonics Congress 2019, the leading international congress for optical technologies in Europe (22-27 June 2019).
